**Re: Adjustment for acceptance of responsibility**

Officer Wong,

A reduction for acceptance of responsibility is warranted. I want to correct the assertion in the Presentence Report that the defendant "continued the instant offense while on bail release". The defendant did not continue in the instant offense, i.e., structuring while on bail release; no such thing has ever been alleged. As a result of a reduction for acceptance of responsibility the defendant is eligible, in the worst case, for the guidelines range at level 24 or, in the best case, probation.

Very Truly Yours,

Howard Greenberg
